INDEX, VOLUME 140

A

Acids, 5-hydroxyindoleacetic, homovanillic and vanilmandelic, urinary excretion of in schizophrenics taking reserpine and chlorpromazine, 207

Act of Creation, The, 390

Activity
- GSR, and perceptions of social behavior in positive, negative and neutral pairs, 457
- levels, ward, of schizophrenics, the drug-giving ritual, verbal instructions and, 272
- motor, an information-flow model of organization of. I: Transduction, transmission and central control of sensory information, 239
- II: Sampling, central processing, and utilization of sensory information, 334

Acute hypertensive cerebellar hemorrhage: Diagnosis and surgical treatment, 38

Adams, Henry B., 103

Addiction Research Center Inventory, a factorial representation of subjective drug effects on, 280

Adey, W. Ross, 10

Adjustment to living without epilepsy, 26

Adolescent boys, unsuccessful initiation rites among, 175

Adult
- enuresis, EEG, eye movements and dreaming in, 397
- patients, dependency in following early maternal bereavement, 196
- schizophrenics, family patterns of children who became, 351

Ainslie, John D., 87

Alcock, Theodora, 313

Alcohol and Civilization, 171

Alcoholism and psychological differentiation: Long-range effect of heavy drinking on field dependence, 412

Alexander, Franz, M.D.: Teacher, student and pioneer of psychoanalysis, 319

Allegranza, A., 207

Alterations in consciousness produced by hypnosis, 146

Angel, Charles, 405

Ansa peduncularis, syndrome of, 17

Anxiety about death, authoritarianism and choice of specialty in medical students, 222

ARCI (Addiction Research Center Inventory), a factorial representation of subjective drug effects on, 280

Arousal measures, electrodermal, reliability of over time in normals, and as a function of tranquilizing drugs and regression in chronic schizophrenia, 189

Asthma and manic depressive psychosis—Simultaneously incompatible or coexistent? 64

Asthmatic children, asymptomatic, behavioral effects of prednisone in, 180

Astrup, Christian, 449

Attitude changes and prognosis: Importance of psychiatric patients' shifts of opinion, 215

Attitudes of psychotherapists toward psychotherapeutic knowledge, the: A study in differences among the professions, 71

Auditory inefficiencies, performance deficit and in schizophrenia, 290

Authoritarianism, death anxiety and choice of specialty in medical students, 222

Awakenings in laboratory, some correlates of dream reporting following, 365

B

Barolin, Gerhard S., 154

Barr, Harriet Linton, 132

Barry, Herbert, Jr., 196

Barry, Herbert, III, 196

Battle, Carolyn C., 374

Beck, Edward C., 154

Bedner, Tom D., 457

Behavior
- schizophrenic, and urinary indole compounds, effects of reduction of tryptophan and methionine intake on, 297
- social, in positive, negative and neutral pairs, GSR and perceptions of, 457
- therapy, incomplete treatment, and symptom substitution, 80

Behavioral effects of prednisone in asymptomatic asthmatic children, 180

Benton, Arthur L., 323

Bereavement, early maternal, dependency in adult patients following, 196

Berlet, Hans H., 297

Berne, Eric, 307

Bernstein, Alvin S., 189

Bernstein, Lewis, 180

Blood-brain barrier and response retention in the rat, effects of electroshock and trypan red on, 405

Blood pressure patterns in a mental hospital population, some considerations on, 58

Boss, Medard, 97

Boys, adolescent, unsuccessful initiation rites among, 175

Bozzi, R., 207

Brain Function and Metabolic Disorders, 100
Brother-to-sister ratios, excessive, reported in male homosexuals' siblings, a possible explanation of, 305
Bruno, A., 207
Bukantz, Samuel C., 180
Bulgren, William G., 173
Bull, Christopher, 297
Burch, Neil R., 457
Burkett, Mary L., 405

C

Central control, transduction and transmission of sensory information: An information-flow model of the organization of motor activity, 239
Central control of sensory input, 244
Central processing, sampling, and utilization of sensory information: An information-flow model of organization of motor activity, 334
Cerebellar hemorrhage, acute hypertensive: Diagnosis and surgical treatment, 38
Cerebellar hemorrhage, clinical picture, 43
Cerebral damage, comparative studies of some psychological tests for, 323
Chafetz, Morris E., 442
Changes
in attitude, prognosis and: Importance of psychiatric patients' shifts of opinion, 215
in personality after sensory deprivation, 103
Character of Danger, The: Psychiatric Symptoms in Selected Communities. Vol. III: The Stirling County Study of Psychiatric Disorder and Sociocultural Environment, 393
Characteristics of patient, therapist and the psychotherapeutic process, relation of systematic preparation of patients for short-term psychotherapy to, 374
Chase, Richard Allen, 239, 334
Chein, Isador, 471
Children
asymptomatic asthmatic, behavioral effects of prednisone in, 180
who later became schizophrenics, family patterns of, 351
Child's question, a, and racial conflict, 162
Chlorpromazine and reserpine, urinary excretion of 5-hydroxyindoleacetic, homovanillic and vanilmandelic acids in schizophrenics taking, 207
Choice of specialty, death anxiety and authoritarianism in medical students, 222
Chronic schizophrenia, reliability of electrodermal arousal measures as a function of tranquilizers and regression in, and over time in normals, 189
Churches, The, and Mental Health, 96
Clarifying the confusion regarding LSD-25, 218

homeostasis and, 10
the life sciences and, 3

D

Dalal, P., 38
Damage, cerebral, comparative studies of some psychological tests for, 323
Death anxiety, authoritarianism and choice of specialty in medical students, 222
Deficit, performance, and auditory inefficiencies in schizophrenia, 290
Dement, William C., 119
Dependence on field, long-range effect of heavy drinking on: Alcoholism and psychological differentiation, 412
Dependency in adult patients following early maternal bereavement, 196
Deprivation, sensory, personality changes after, 103
Developmental Psychology of Jean Piaget, The, 233
Diagnosis and surgical treatment of acute hypertensive cerebellar hemorrhage, 38
Differences
among the professions, a study of (The attitudes of psychotherapists toward psychotherapeutic knowledge), 71
individual, in recall of a drug experience, 132
Differentiation, psychological, and alcoholism:

long-range effect of heavy drinking on field dependence, 412
Discordance and concordance, schizophrenic, in monozygotic twins in the light of family dynamics, 464
Dream
and sleep cycle, effect of LSD on, 417
reporting following laboratory awakenings, some correlates of, 365
Dreaming, EEG, eye movements and, in adult enuresis, 397
Dreams of experimental subjects, influence of laboratory situation on, 119
Drinking, heavy, long-range effect of on field dependence: Alcoholism and psychological differentiation, 412
Drug
effects, subjective, a factorial representation of on the Addiction Research Center Inventory, 280
experience, individual differences in recall of a, 132
Drug-giving ritual, the, verbal instructions and schizophrenics' ward activity levels, 272
Drugs, tranquilizing, reliability of electrodermal arousal measures as a function of and of regression in chronic schizophrenia, and over time in normals, 189
Dynamics, family, schizophrenic concordance and discordance in monozygotic twins in the light of, 464

E

Early maternal bereavement, dependency in adult patients following, 196
EEG, the, eye movements, dreaming and, in adult enuresis, 397
Effect
of a psychiatric emergency service on motivation for psychiatric treatment, the, 442
of hypnotic suggestions on evoked potentials, 154
of LSD on the sleep-dream cycle, the, 417
long-range, of heavy drinking on field dependence: Alcoholism and psychological differentiation, 412
Effects
behavioral, of prednisone in asymptomatic asthmatic children, 180
of drugs, subjective, a factorial representation of on the Addiction Research Center Inventory, 280
of electroshock and trypan red on the blood-brain barrier and response retention in the rat, 405
of reduction of tryptophan and methionine intake on urinary indole compounds and schizophrenic behavior, 297
Electrodermal arousal measures, reliability of over extended periods in normals, and as a function of tranquilizing drugs and regression in chronic schizophrenia, 189
Electroshock and trypan red, effects of on the blood-brain barrier and response retention in the rat, 405
Elementary Medical Statistics, 2nd ed., 473
Emergency service, psychiatric, effect of on motivation for psychiatric treatment, 442
English, Joseph T., 92
Enuresis, adult, EEG, eye movements and dreaming in, 397
Epilepsy, the adjustment to living without, 26
Error correction, 345
Evoked potentials, effect of hypnotic suggestions on, 154
Excessive brother-to-sister ratios reported in siblings of male homosexuals, a possible explanation of, 305
Excretion, urinary, of 5-hydroxyindoleacetic, homovanillic and vanilmandelic acids in schizophrenics taking reserpine and chlorpromazine, 207
Experience, drug, individual differences in recall of a, 132
Experimental subjects' dreams, influence of laboratory situation on, 119
Eye movements, EEG and dreaming in adult enuresis, 397

F

Factorial representation of subjective drug effects on the Addiction Research Center Inventory, a, 280
Family
dynamics, schizophrenic concordance and discordance in monozygotic twins in the light of, 464
patterns of children who became adult schizophrenics, 351
